

# Mice

These mice are identical in specs, differing only in the exterior material colors.

## **Option 1: Brennus (Black) Gaming Mouse**

## **Option 2: Boudica (White/Silver) Gaming Mouse**

The Boudica (silver) or the Brennus (Black) gaming mouse is a professional next-generation tool of maximum precision, comfort, and reaction.

It has five programmable buttons and 1 DPI selector button that cycles through up to 6 DPI settings to enhance your aiming accuracy. The DPI changes occur effortlessly in-game with the easy-to-find button located next to the scroll wheel. The vibrant scroll wheel color changes with each DPI level adjustment to confirm the new DPI setting without having to slow your gameplay (1,000 is red; 2,000 is blue; 3,000 is green; 5,000 is cyan; 7,000 is yellow; 10,000 is purple).

### **Features:**

1. 6 programmable buttons.
2. Prism Lighting RGB colors.
3. High precision optical engine.
4. Dedicated button for DPI speed control.
5. Scroll wheel RGB lighting coordinated to DPI setting.
6. USB interface.
7. Sleek, modern design.
8. Metallic bottom case.
9. Braided fiber cable.
